

## SMARTSIGN

The **LSG700** sign is a foldable and programmable LED sign, with capacity for 200 totally programmable messages. The length of messages is up to eight lines with ten characters.

It is controlled through **LCD702** control head, with LCD screen and selection keys. It allows, through a simple menu system, to select and previsualize the message before it appears in the LED sign.

Through the SmartSign Message Editor PC software, it is easy to edit and unload the 200 messages to the control head. It allows to program letters, numbers and symbols (arrows, square, etc.). In addition, it has a wide library of the most usual messages in different countries.
